
Zeros and ones

P20867_en

Concurso On-line 6 (OIE08) (2008)

Write a program that prints all the combinations of z zeros and o ones such that $z + o = n$, for a given n .

Input

The input consists of a natural $0 < n < 11$.

Output

Your program must print all the combinations in lexicographical order (look the instance), one per line, the characters separated by spaces.

Sample input

3

Sample output

```
0 0 0
0 0 1
0 1 0
0 1 1
1 0 0
1 0 1
1 1 0
1 1 1
```
