## Print a cross

P24381\_en

---

Write a procedure

```
void cross(int n, char c);
```

to print an  $n \times n$  cross with the character @c@. For instance, the call

```
cross(5, 'X');
```

produces this output:

```
  X
  X
XXXXX
  X
  X
```

### Precondition

@n@  $\geq 3$ , @n@ is odd.

### Observation

You only need to submit the required procedure; your main program will be ignored.
