Sort three   P32954_en

Write a procedure

void *sort3* (**int**& *a*, **int**& *b*, **int**& *c*);

to sort @a@, @b@ and @c@ in nondecreasing order. For instance, if called with @a@ = 7, @b@ = −3 and @c@ = 1, the values after the call must be @a@ = −3, @b@ = 1 and @c@ = 7.

Observation

You only need to submit the required procedure; your main program will be ignored.
