**Mode****P65538\_en**Assaig Primer Concurs de Programació de la FME (2004)

---

Write a program that finds the most frequent word for every given sequence of words.

**Input**

Input consists of several cases. Every case begins with a number  $n$  between 1 and  $10^5$ , followed by  $n$  words made up of only lowercase letters. A special case with  $n = 0$  marks the end of input.

**Output**

For every case, print the word that appears more times. If there is a tie, print the largest word in alphabetical order.

**Sample input**

```
6 joan maria maria anna maria joan
2 aaa b
0
```

**Sample output**

```
maria
b
```

**Problem information**
