## Maximum of each sequence                                   P71753_en

Write a program that reads sequences of integer numbers and prints the maximum value of each sequence.

### Input

Input contains several sequences. Each sequence begins with its number of elements $n > 0$, followed by $n$ integer numbers.

### Output

Print the maximum of every sequence, one per line.

### Sample input

```
10   10 30 40 50 60 30 40 15 10 20
2    −54 −134
4    1 1 1 1
```

### Sample output

```
60
−54
1
```
