## Horizontal lines

P74306\_en

---

Your task is to write a program that computes the number of horizontal lines contained in a given rectangle of characters. We consider that an horizontal line is a sequence of two or more dashes consecutive horizontally.

### Input

The input starts with two naturals  $n \geq 1$  and  $m \geq 1$ , followed by  $n$  lines, each one with  $m$  characters. All the characters are dashes and lowercase letters.

### Output

Your program must print the number of horizontal lines contained in the given rectangle.

#### Sample input 1

```
4 10
bb--cd----
a--f--d--d
abcdefghij
---z-----
```

#### Sample output 1

```
7
```

#### Sample input 2

```
3 3
-a-
a-a
-a-
```

#### Sample output 2

```
0
```

#### Sample input 3

```
1 2
--
```

#### Sample output 3

```
1
```

#### Sample input 4

```
5 1
-
a
-
b
-
```

#### Sample output 4

```
0
```
