
Palindromic numbers

P76229_en

Write a function

```
bool is_palindromic (int n);
```

that tells whether the natural number n is a palindromic number or not. For instance, 12321, 0 and 4004 are palindromic, but 12 and 100201 are not.

Precondition

n is a natural number.

Observation

Només cal enviar el procediment demanat; el programa principal serà ignorat.
