## Reversing a list of words (6)

P89336\_en

Write a program that reads a sequence of words and prints, in reverse order, the first half of the list.

#### Input

Input consists of a sequence of words.

### Output

If *n* denotes the total number of words, print the  $\lfloor n/2 \rfloor$  first words of the original sequence, in reverse order, and one per line.

#### Observation

For the sake of practice, use recursion (not arrays).

#### Sample input 1

jordi mireia arnau

#### Sample output 1

jordi

#### Sample input 2

dolphins octopuses squid sharks whales piranhas

#### Sample output 2

squid octopuses dolphins

#### **Problem information**
