## Observació

Avaluació sobre 10 punts:

- Solució lenta: 5 punts.
- solució ràpida: 10 punts.

Entenem com a solució ràpida una que és correcta, de cost lineal i capaç de superar els jocs de proves públics i privats. Entenem com a solució lenta una que no és ràpida, però és correcta i capaç de superar els jocs de proves públics.

## Informació del problema
