
Vowel and consonant count

X21212_en

Write a function *vowel_consonant_count*(*s*) that given an string *s* returns the number of vowels and consonants that appear as characters in *s*. We assume all characters of *s* are letters.

Sample session

```
>>> vowel_consonant_count('SpartacUs')
(3, 6)
>>> vowel_consonant_count('KingKong')
(2, 6)
```
