Max of two numbers   X37473_en

Design a circuit receives two 3-bit numbers at the input and produces the maximum of both numbers at the output.

Specification

> **module** *max3(a, b, max)*;
>   **input** [2:0] *a*, *b*;
>   **output** [2:0] *max*;

Input

- *a* and *b* are the two 3-bit input numbers.

Output

- *max* is the 3-bit output number.
