## Numbers in an interval.

X70783\_en

---

Write a program that reads two numbers  $a$  and  $b$  (with  $a \leq b$ ), and prints all numbers between  $a$  and  $b$ .

### Input

The input consists of two natural numbers  $a$  and  $b$  such that  $a \leq b$ .

### Output

Print a line (terminated by a newline) containing the numbers  $a, a + 1, \dots, b - 1, b$ . Separate the numbers with commas.

### Observation

#### Sample input 1

15 21

#### Sample input 2

7 7

#### Sample output 1

15,16,17,18,19,20,21

#### Sample output 2

7
