
Delete repeated digits

X89842_en

Write a function *del_rep_dig(s)* that has a string *s* as parameter and returns the string obtained after ruling out all the digit repetitions.

Sample session

```
>>> del_rep_dig('boeing727')
'boeing72'
>>> del_rep_dig('00705007')
'075'
>>> del_rep_dig('12gold31234')
'12gold34'
```
